

Overview of Approved Porsche A40 Engine Oils (37/08)

Information

This bulletin replaces bulletin Group 1, #27/08, dated September 25, 2008.

Vehicle Type: **All Porsche vehicles for which Porsche A40 engine oils are allocated.**

⇒ *Manufacturer's Certificate 'Allocation of approved engine oils (36/08)'*

Note: This technical information applies to all Porsche standard-production vehicles with the exception of the Porsche Cayenne V6 3.2 and V6 3.6 DFI. The engine oils for the Porsche Cayenne V6 3.2 and V6 3.6 DFI are listed in a separate bulletin.

Model Year: **As of 1984**

Information: **Approved Oil Availability**

Porsche approved oil availability varies by global region. Some oils on the following "Approved List" may not be available in certain regions of the North American market, or, may only be available in overseas markets exclusively. When searching the "Approved List" for a particular manufacturer or brand name, keep in mind that the below listed "Sales Region Codes" are marketed for the North American region:

- CAN—Canada**
- USA—United States of America**
- WW—World-Wide**

Overview:

Information

Porsche AG has reached an agreement with the oil companies which involves setting a time limit on the validity of our engine oil approvals.

The period of validity is between 2 and 3 years. The expiration date of the approval is given in the last column in the list.

Once this validity period has elapsed, the approval in question is revoked unless an extension is requested by the relevant manufacturer.

Miscibility: **All engine oils approved by Porsche can be mixed provided they are of the same Porsche oil specification.** This means that it is not necessary to flush the engine when the oil is changed if another type of oil is used. However, since every brand of oil has a specially adapted unique composition, the same brand and type of oil should be used for topping up between oil change intervals if possible.

Important Notice: Porsche Cars N.A Technical Bulletins are intended for use by professional technicians, not a "Do-it-yourselfer." They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Special tools may be required to perform certain operations identified in these bulletins. Use of tools and procedures other than those recommended in these bulletins may be detrimental to the safe operation of your vehicle. Properly trained technicians have the equipment, tools, safety instructions and know-how to do a job properly and safely. If a condition is described, do not assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your Porsche Dealer for information on whether your vehicle may benefit from the information. Part numbers listed in these bulletins are for reference only. Always check with your authorized Porsche dealer to verify correct part numbers.
